

## OleeGuard™ Impact Resistant Panels

OleeGuard™ panels combine beautiful images with impressive durability for a custom wall panel that stands up to the harshest healthcare environments. Panels are available in up to 4' x 8', have a matte finish, are impact, scratch and abrasion resistant, and feature a custom design or an image selected from our extensive photo collection. OleeGuard™ durable panels are a creative way to combine wall protection with graphic design for large-scale artwork and wayfinding solutions.
