

HALEY EAKIN, IIDA, NCIDQ, EDAC

INTERIOR DESIGN TEAM

Since joining ESa in 2012, Haley Eakin has been heavily involved in interior design for a wide range of healthcare and educational projects. In her role as Interior Designer, Haley partners with architects and clients to design building interiors, select finishes, create construction documents, coordinate with consultants and work with contractors until a project is completed.

Haley has extensive experience incorporating Building Information Modeling (BIM) during the design process, and utilizing Revit Architecture on various projects. Her role also involves systematic design development based on documentation and programming of operational procedures and space requirements, construction documents, millwork details, furniture layouts and furniture and drapery bid packages for distribution to prospective bidders.

EXPERIENCE 7 Years
