At Olee Creative, we are continually striving to enhance our products and services to better meet the needs of professionals like you. Based on valuable feedback from our community, I'm excited to share several significant improvements to our product offerings.

Expanded Catalog of Roll Patterns:

We've broadened our range of nature-inspired patterns to include patterns now available in convenient 60" wide etch film rolls and 61" wide polyester film rolls.

They are available in 25', 50', and 100' lengths with patterns repeating between 48"-60" wide.

These designs, embodying the tranquility and beauty of the natural world, have been increasingly sought after, and we're thrilled to bring you more options than ever with shorter lead times.

Material Choices for Every Need:

Recognizing the diverse applications of our products, we now offer both polyester and vinyl film options. Whether your project requires the translucency of etch or the transparency and sustainability of polyester, we have you covered.

As an industry partner, we are pleased to offer these rolls to you at wholesale cost. This program is designed to offer competitive advantages to our partners, ensuring you get the best value for our high-quality window films.

Lead Time: Print is done on demand. Typical lead time is 2-4 weeks, but it may adjust up or down depending on demand. Please call us for an accurate estimate.

- Payment by credit card only.
- Etch film is based on a 60" wide roll with 1/2" of unprinted margin on each edge (59" image area).
- Polyester film is based on a 61" wide roll with 1/2" of unprinted margin on each edge (60" image area).
- Based on one continuous image per roll, with pattern repeated between 48" and 60".
- Other sizes and privacy levels are available upon request at an additional charge.
- Custom color match is an additional charge.
- Shipping is an additional charge.
- Prices subject to change without notice.
